CAREER OBJECTIVE

Cybersecurity-focused Computer Engineering student at IITRAM with hands-on experience in network security, Linux systems, web application security, Capture The Flag (CTF) competitions, and security labs. Skilled in Python, Django, Flask, SQL, and backend development, with a strong interest in vulnerability assessment, security automation, and offensive security. Ranked among the Top 6% of users on TryHackMe and certified through the Google Cybersecurity Professional Certificate. Eager to leverage analytical thinking, problem-solving abilities, and technical skills to contribute to real-world cybersecurity challenges while continuously expanding technical expertise.

PROJECTS

SwasthyaCare – Hospital Management System

- Developed a role-based Hospital Management System using Django to manage patient registration, appointments, medical records, and hospital operations.
- Integrated Auth0 authentication, automated email notifications.
- Key Features:** Appointments, Medical Records, Hospital Management, Email Alerts.

WhatsApp AI Agent for Jewellery Business

- Developed an AI-powered WhatsApp assistant using workflow automation to handle customer inquiries and appointment bookings.
- Automated responses for product information, customer support, and business communication to improve efficiency and response time.
- Key Features:** WhatsApp Automation, AI Agent, Booking System, Customer Support.

EDUCATION

Institute of Infrastructure, Technology, Research And Management (IITRAM)

Bachelor of Technology (B.Tech) in Computer Engineering

2025 – 2029

Ahmedabad, Gujarat

SKILLS

Languages: Python, JavaScript, SQL

Frameworks: Django, Flask

Cybersecurity: Network Security, Web Application Security, Vulnerability Assessment, Security Automation, Linux Administration

Networking: TCP/IP, DNS, HTTP/HTTPS, Subnetting, Routing Fundamentals

Databases: MySQL, PostgreSQL, SQLite

Web Technologies: HTML, CSS, JavaScript

Developer Tools: Git, GitHub, Linux

CERTIFICATIONS

Google Cybersecurity Professional Certificate – Coursera

Django Application Development with SQL and Databases – Coursera

ACHIEVEMENTS

Top 6% on TryHackMe: Ranked among the Top 6% of users worldwide through hands-on cybersecurity labs, practical security challenges, and continuous learning.

Shadow Protocol CTF (VSSUT): Secured **10th Position** as a member of **Team Phantom Exploit** in the Shadow Protocol CTF organized by Veer Surendra Sai University of Technology (VSSUT), Burla.
